

September 2022 – Version 1

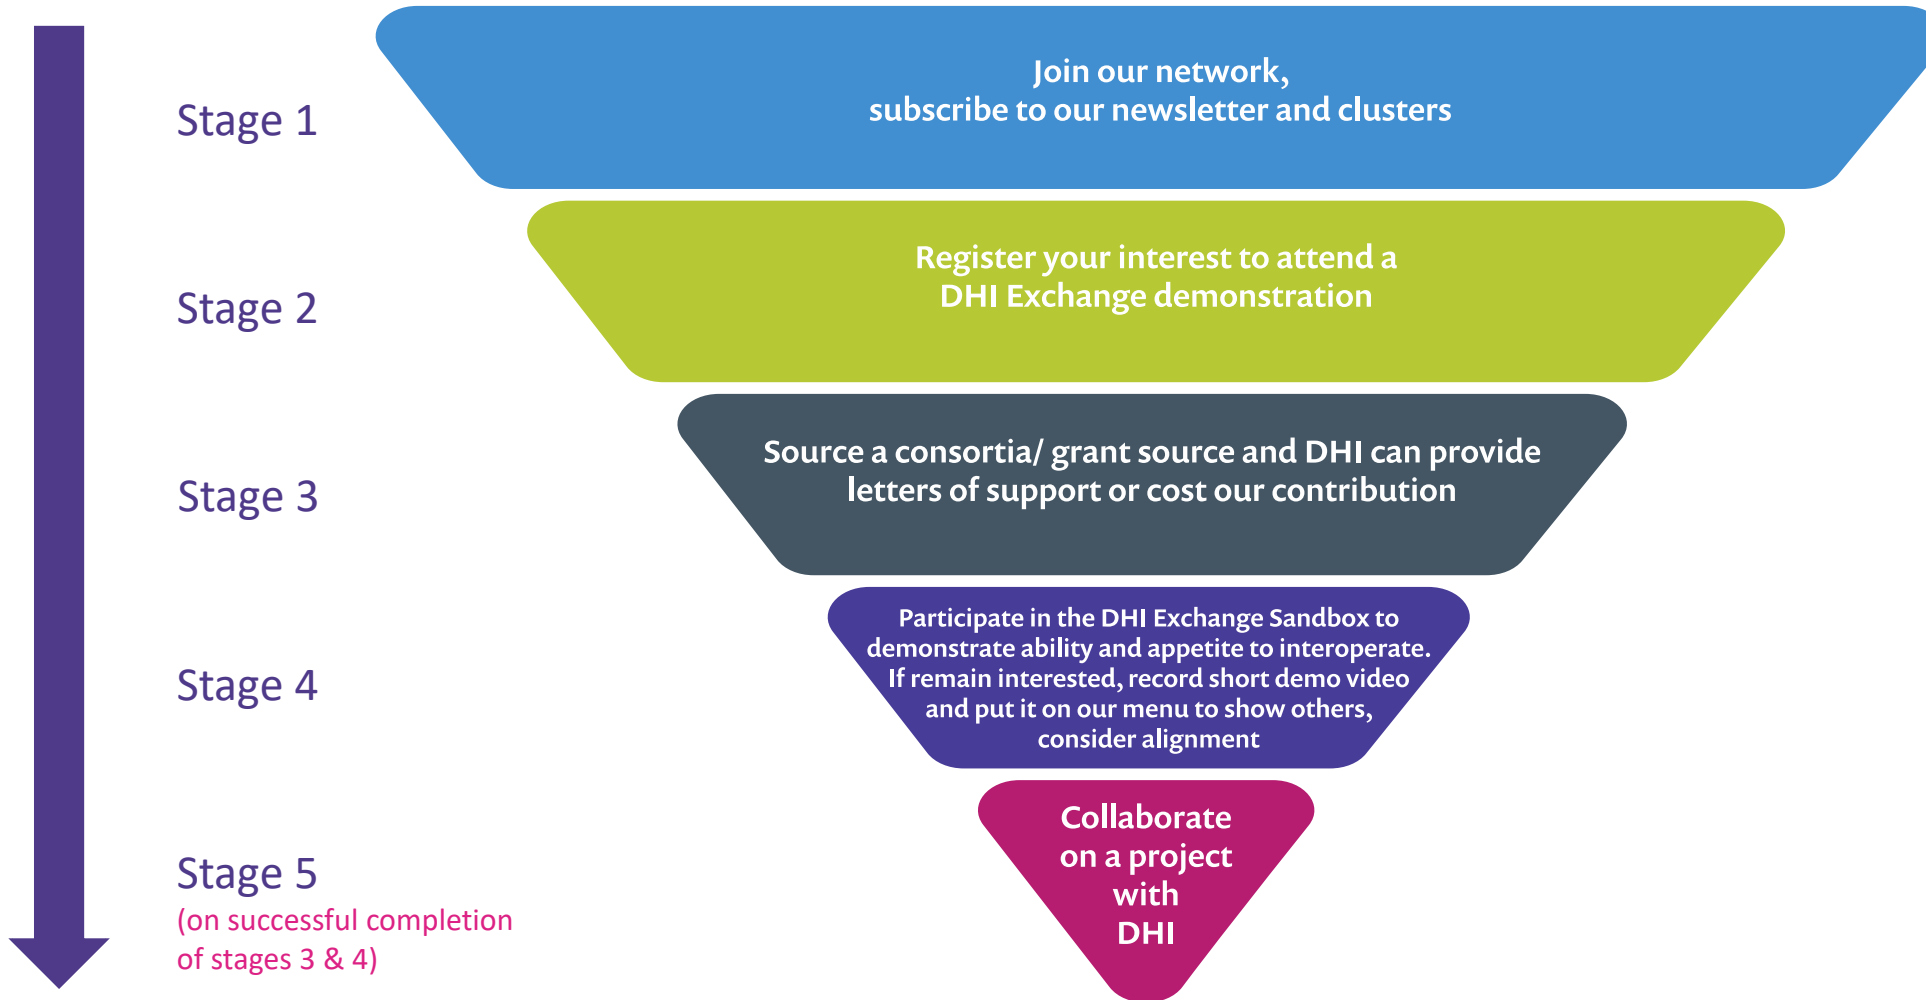

Digital Health & Care Innovation Centre

Pathway for industry to engage with the
Digital Health & Care Innovation Centre

Pathway for industry engagement with DHI

DHI Industry offering...

JOIN OUR NETWORK

Register your interests/ preferences for access to collaboration and funding opportunities, knowledge exchange and policy insights

ACCESS TO DHI EXCHANGE

Members of our network can showcase the art of the possible by using our digital infrastructure to demonstrate and simulate their digital solutions

PROJECT OPPORTUNITIES

Invitations to participate in new co-design projects, aligned to your interests and preferences and opportunity requirements

SHARED LEARNING/ INSIGHTS

We participate in workshops; study visits circulate emerging trends/ examples from other countries to help support policy insights and shared learning

SIGNPOSTING/ INTRODUCTIONS

To relevant, national and global partners in our network who may be able to provide support or assist with new opportunities for your business

THOUGHT LEADERSHIP

DHI provides strategic insights which identify industry opportunities by presenting at relevant events on emerging trends and strategic directions in digital health and care

LETTERS OF SUPPORT

For businesses looking to secure grants and funding opportunities to develop new opportunities for their business solutions where this aligns with DHI's priorities and interests

Stage 1

Join our network, subscribe to our newsletter and clusters

Stage 2

Register your interest to attend a DHI Exchange demonstration

Stage 3

Seek support from DHI for industry project

Source a consortia/ grant source and DHI provide a letter of support or cost our contribution

Stage 4

Seek involvement in DHI Projects - Participate in DHI Exchange Sandbox to demonstrate ability and appetite to interoperate. If remain interested, record short demo video and put it on our menu to show others, consider alignment

Stage 5

Successfully complete stages 3/4 - Run a project together

Testimonial - Sitekit

The DHI Exchange has greatly benefited Sitekit in progressing a number of projects developing innovative digital solutions in Healthcare.

From developing Digital Wallets allowing patients to access multiple services using a single set of verifiable credentials, to using the Health Data Exchange to access activity data from wearables and routing to clinicians, the DHI Exchange has proven to be an invaluable resource for realising person-centred, data-sharing digital products.”

Les Nicolson Sitekit Project Manager

The Sitekit logo, featuring the word 'sitekit' in a bold, blue, sans-serif font, enclosed within a blue chevron shape pointing to the left and right.
